Percentage: 69.38%

WORK EXPERIENCE

MERN Stack Intern

Destov Tech, Mumbai

02/2024 - Present

Air Way Bill Tracking Project

- Developed a web-based application for tracking air way bills using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Implemented user authentication and authorization functionalities for secure access to tracking information.
- Integrated real-time tracking updates to provide users with up-to-date shipment statuses.
- Collaborated closely with team members to design and implement intuitive user interfaces for enhanced user experience.

PERSONAL PROJECTS

STUDY TOGETHER (11/2023 - 01/2024)

- **Study Together** is a dynamic online platform crafted with ReactJS and integrated APIs, facilitates collaborative learning for students. Join a vibrant community, access shared study resources, and engage in interactive study sessions to enhance your educational experience

CAMPSEARCH (03/2023 - 06/2023)

- **Camp Search** is a web application that allows you to view campgrounds with a short description. Once you login or signup you can begin to create your own campgrounds that includes a title, image, address and short description. Explore the beautiful world through our website

GITHUB REPO DISPLAY (01/2024 - 02/2024)

- **GitHub Repo Display** is a web application that allows users to explore GitHub repositories associated with a specific GitHub profile. The application displays the user's profile picture, name, location, follower count, and a link to their GitHub profile.
